HOW I WORK

1. Brief. You describe the business and what the work needs to do. I ask the questions that matter and confirm the scope in writing.

3. Deposit & build. A deposit books the slot. You see a working draft — a real link, not a picture of one — usually within days.

4. Revisions & handover. Revisions are included. You get the finished files, the live deployment and a walkthrough.

2. Fixed quote. One price, agreed before work starts. No hourly surprises, no scope creep billed back to you.

Ranges reflect scope, not haggling: a one-page site and a booking platform are not the same job. Every project is quoted individually after the brief. Payment in instalments is available on larger builds. Prices shown in naira and US dollars; other currencies quoted on request.
